

## Which experiments are you interested in?

### DL 2102TA - BASIC INDUSTRIAL ELECTRIC INSTALLATIONS

- |  |   |
|--|---|
| <input type="checkbox"/> Single-pole control auxiliaries | <input type="checkbox"/> Contactor                          |
| <input type="checkbox"/> Logic operators                 | <input type="checkbox"/> Contactor self-supply              |
| <input type="checkbox"/> Interlock between contactors    | <input type="checkbox"/> Sequentially controlled contactors |
| <input type="checkbox"/> Exclusive-OR operator           | <input type="checkbox"/> Excitation delayed timer           |
| <input type="checkbox"/> De-excitation delayed timer     | <input type="checkbox"/> Static timer                       |

### DL 2102TB - ADVANCED INDUSTRIAL ELECTRIC INSTALLATIONS

- |   |  |
|---|--|
| <input type="checkbox"/> Thermal relay                    | <input type="checkbox"/> Manual star/delta starting    |
| <input type="checkbox"/> Manual reverser                  | <input type="checkbox"/> Timed sequence control        |
| <input type="checkbox"/> Pulse generator                  | <input type="checkbox"/> Automatic star/delta starting |
| <input type="checkbox"/> Star/delta starter with reverser | <input type="checkbox"/> Counter-current braking       |

### DL 2102TC - BASIC MOTOR STARTING

- |  |  |
|--|--|
| <input type="checkbox"/> Manual starter with rotor resistances                 | <input type="checkbox"/> Automatic starter with rotor resistances        |
| <input type="checkbox"/> Speed variator for Dahlander motor                    | <input type="checkbox"/> Speed variator and reverser for Dahlander motor |
| <input type="checkbox"/> Automatic reverser for three-phase asynchronous motor |  |

### DL 2102TD - ADVANCED MOTOR STARTING

- |   |   |
|---|---|
| <input type="checkbox"/> Motor starting with switch                     | <input type="checkbox"/> Star/delta starting with switch                                    |
| <input type="checkbox"/> Reverser with switch                           | <input type="checkbox"/> Star/delta starting, 2 rotation directions, with switch            |
| <input type="checkbox"/> Speed variator for Dahlander motor with switch | <input type="checkbox"/> Speed variator for Dahlander motor, 2 rotation directions, with sw |

### DL 2102TE - MOTOR STARTING WITH SENSOR

- |  |   |
|--|---|
| <input type="checkbox"/> Motor starting and control with limit switch  | <input type="checkbox"/> Motor starting and control with inductive sensor             |
| <input type="checkbox"/> Motor starting and control with capacitive sensor   | <input type="checkbox"/> Motor starting and control with photoelectric barrage sensor |
| <input type="checkbox"/> Motor starting and control with photoelectric reflecting sensor   | <input type="checkbox"/> Motor starting and control with level sensor                 |
| <input type="checkbox"/> Motor starting and control with level variations  | <input type="checkbox"/> Motor starting and control with pulse programmer             |
| <input type="checkbox"/> Sequence of motor starting, 2 rotation directions, with motor stop between the 2 operations with cam programmer |   |
